### LIBRARY MEETING.

Mrs. Crawford asks us to announce that there will be a meeting of the subscribers to the Library fund at the residence of Mrs. Hyatt, 8 o'clock p. m. It is a business meeting and all are urged to attend.

### THE CITY DIRECTORY.

Knight & Sutton, publishers of the city directory, went to Houston last evening to make arrangements to have the directory bound. Mr. Knight asks The Enterprise man to inform the people that they are working night and day on the publication, and that it would be ready for delivery in a very short time. In this year's book we will have about a third more names than we had last year, and estimating the population of the city conservatively, Beaumont now has a population of between 12,000 and 12,500 people. Our book this year will be quite an improvement over that we got out last year, and one that a city many times as large as Beaumont might well feel proud of.

### TWO ELECTIONS IN ONE DAY.

That's what occurred in Beaumont yesterday. Every one knows of the city election. But it is not supposed that many are aware of the fact that the pupils in Miss Winnie Camp's room at the South End school, the pupils of the fifth and sixth grades, also voted and almost duplicated the officers that were elected by the voters of the city. Mayor Wheat and Sutton were elected without opposition. Their next man was Ras Landry for city marshal. Nick Vaughan was elected for alderman in the First ward, O. B. Greaves in the Second ward and E. S. Charlton in the Third ward. Miss Camp has about forty pupils in her room and nearly all of them took advantage of the opportunity offered them and cast their first vote.

Stephen Van Allen of Jamaica: an expert shot with a rifle or revolver, has received as a gift the smallest revolver ever made. It is only an inch long and is perfect in every detail. It is self acting and the chamber holds six cartridges. The bullets are the size of the head of a large pin. The cartridges possess sufficient power to send the bullets through a half inch pine board. Mr. Van Allen has tested the little weapon and found it accurate. It was given to him by a friend, who obtained it abroad.
